Product Overload

Save Me From
United States

Product description

Hair sprays, styling products and dry shampoos contribute to product buildup and wear and tear on your cuticles, making your hair look dull, stringy and greasy. When cuticles in hair are uplifted, the cortex is exposed and longitudinal cracks develop. Scalp buildup can make your hair limp and oily. Save Me From's Product Overload treatment contains gentle cleansing ingredients like black kaolin, white and bamboo activated charcoal, and multi-hyaluronic acid to detoxify the hair and draw out impurities while smoothing the cuticle.

Product benefits

Formulated with Black Kaolin and White and Bamboo Activated Charcoal, this glossy black treatment helps improve your hair's strength while removing impurities from the hair and scalp. This treatment contains powerful detoxifiers that draw out excess oil and product buildup, while adding moisture and smoothing hair. Results show that this treatment exponentially improves the condition of hair that has been damaged by product buildup. Product Overload leaves hair 138% thicker, 48.2% stronger, 59% shinier, 108.5% more hydrated, and with 84.78% less split ends.
