828 AROMA

Lady Of Love Solid Perfume

Product description

Lady of Love Solid Perfume is part of 828 Aroma's collection of alcohol-free solid perfumes and colognes, designed to melt into the skin to capture a soft, intimate scent that doesn't overpower. With a hushed scent profile, Lady of Love combines top notes of pear, bergamot, and peach blossom; heart notes of amber, jasmine, and cashmere; and base notes of musk, vanilla, and sandalwood. The fragrance is formulated with skin care-inspired ingredients including coconut oil, beeswax, sweet almond oil, avocado oil, and vitamin E, and is free from alcohol, parabens, and phthalates. The product is captured in a twist-up applicator for a sleek, hygienic application, to carry during the day or to use when traveling.

Claims & Benefits

- Alcohol-free fragrance formula
- Paraben-free
- Phthalate-free
- Portable and travel-friendly format
- Spill-proof solid fragrance application
- Mess-free twist-up packaging
- Skin-conditioning oil-based formula
- Soft, intimate scent experience

Lost Americana

Product description

Lost americana, Dossier's first celebrity fragrance, has been created in collaboration with artist and actor mgk, also known as Machine Gun Kelly. This genderless fragrance is conceived as a rich, earthy, and spicy scent, inspired by mgk's affinity for American nostalgia intertwined with a 90's mood. The fragrance opens with warm notes of incense, almond, and pink pepper, before unfolding into a heart of nutmeg, myrrh, and cinnamon, with base notes of vetiver, patchouli, suede, vanilla, and a hint of chocolate. The fragrance box is 100% recyclable and made from previously recycled material, as is the glass bottle. The fragrance is made with vegan ingredients and is PETA vegan

and cruelty-free-certified.

Claims & Benefits

Lost Americana is an earthy, statement scent.

Composed of 18% fragrance oils for a long lasting scent

Made with vegan, high quality ingredients

Honey + Hay Eau De Parfum

OLFACTORY X (PERFUMORA)

Honey + Hay Eau De Parfum

Product description

This fragrance has been created to evoke the sensation of pure, golden sunshine, to capture the feeling of a sun-drenched afternoon. Composed in an olfactory process that combines botany, chemistry, biology, and psychology, the fragrance blends top notes of lavender, honey, and hay; heart notes of omumbiri – or Namibian myrrh; and base notes of tonka bean, vanilla, aromatic notes, and tobacco. The Olfactory X scents are made in small batches and feature scent-locking technology, a proprietary process that allows each note to be released slowly, for long-lasting wear without a harsh effect.

The scents are composed with sustainably sourced ingredients and are hypoallergenic.

Claims & Benefits

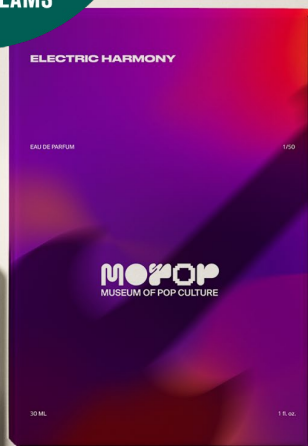

Small Batch Craftmanship, Scent-Lock technology, Sustainable-Sourced Ingredients, All Natural, Hypoallergenic, Clean Ingredients

OSMO

Electric Harmony – Mopop

Fragrance: Personal & Home | Finalist

OSMO

Electric Harmony – Mopop

Product description

Created by Osmo to celebrate the Museum of Pop Culture's (MOPOP) 25th anniversary, this fresh, modern scent is intended to encapsulate creativity and pop culture's spirit. The scent was created using Osmo's proprietary Olfactory Intelligence (OI) platform, allowing for a collaboration between artificial intelligence and master perfumer Christophe Laudamiel. As part of the creative process, the museum provided an image of a sculpture as the fragrance brief for the Olfactory Intelligence. The OI then created a draft formula that was passed to Laudamiel to perfect. The scent's structure takes inspiration from the guitars housed in the museum, in that it harmonizes contrasting elements. These include fresh citrus

and florals with marine and metallic facets, for an unexpected green, airy opening; rum extract for a distinctive warmth; and a deep, woody base of patchouli and oud that captures intensity with a mineral twist.

Exobalm-hr

Product description

Designed to be used overnight, this regenerative scalp treatment supports scalp balance, hydration, and healthier-looking hair. The formula is powered by ExoCoBio's rose stem cell-derived extracellular vesicles technology, or RSCE™, which combines with growth factors, peptides, amino acids, and vitamins to help improve the scalp environment, addressing dry, stressed, or sensitive scalp conditions. To preserve the ingredients' freshness, the formula is composed of two elements: a lyophilized Exocapsule® which contains approximately 2.5 billion purified extracellular vesicles with bioactive peptides, growth factors, amino acids, vitamins, and coenzymes; and a W-Formula™ balm activator which freshly reconstitutes the ingredients before use, for optimal stability and performance. To use, the two elements are mixed together, and the formula should be refrigerated and used within 21 days. In tests after four weeks of use, the product reduced hair shedding by 58%; improved scalp

Hair Products | Finalist

hydration by 29%; and scalp soothing parameters improved by 17%.

Claims & Benefits

- Helps soothe stressed and sensitive scalp conditions
- Helps improve scalp hydration and moisture balance
- Helps reduce visible hair shedding
- Supports healthier-looking, fuller-looking hair
- Helps improve scalp comfort and reduce dryness
- Supports scalp barrier recovery after aesthetic procedures
- Helps improve scalp keratin and sebum balance
- Supports healthier scalp microenvironment for hair follicles
- Provides overnight regenerative scalp care
- Lightweight balm texture designed for prolonged scalp contact
- Freshly activated dual-component system for enhanced ingredient stability
- Suitable as a complementary maintenance step for professional scalp treatments
- Supports scalp recovery following microneedling and energy-based procedures
- Formulated with Rose Stem Cell-Derived Extracellular Vesicles, peptides, amino acids, vitamins, and growth factors
- Developed by ExoCoBio, the exosome category creator in medical aesthetics

HUFAS

Arctic Conditioner

HUFAS

Arctic Conditioner

Product description

This product focuses on the scalp, acting to rebalance, refresh, and restore the scalp while delivering conditioning to the hair. The lightweight texture means the conditioner can be applied to the scalp without creating any build-up. Among the ingredients are cooling agents which provide a refreshing sensation, helping soothe the scalp; a clinically supported anti-dandruff technology that targets the root cause of scalp imbalance, inhibiting the growth of microorganisms associated with flaking and irritation; humectants including betaine and glycols to maintain hair and scalp's moisture balance; and lipid-rich oils, including jojoba and coconut oil, for nourishment, softness, and improved hair manageability without heaviness. Added to this, a multifunctional active complex supports the structural integrity of the hair and scalp, reinforcing hair fibers, protecting against environmental stressors, and improving hair resilience and quality. After

Hair Products

shampooing, the conditioner is applied to the scalp and combed through lengths, before rinsing.

Claims & Benefits

- * Provides immediate cooling and refreshing scalp sensation
- * Helps reduce scalp discomfort, itchiness, and imbalance
- * Supports a healthy scalp environment and microbiome balance
- * Helps prevent dandruff and excessive flaking
- * Hydrates both scalp and hair without weighing down
- * Improves hair softness, smoothness, and manageability
- * Strengthens and conditions the hair fiber
- * Enhances shine and overall hair quality
- * Suitable for daily use and all hair types
- * Designed for direct scalp application
- * Combines sensory experience with functional performance
- * Supports long-term scalp health and hair vitality

Scalp Cooling Serum

K-HEADSPA

Scalp Cooling Serum

Product description

Designed to introduce a new category of scalp skin care, the Scalp Cooling Serum is intended as a daily scalp wellness ritual, packaged in an integrated brush-applicator device that delivers red light and vibration therapy. Among the serum's ingredients is a Cooling Active Complex™ that combines niacinamide for scalp conditioning and hydration; caffeine for a refreshing sensation; panthenol for moisture and soothing; zinc PCA; ectoin and beta-glucan for scalp conditioning; alongside a peptide complex for scalp wellness. In addition, menthol and peppermint extracts deliver a cooling sensation. The product is applied using the washable applicator with a hygienic on/off function to dispense the serum precisely. It can also be used with its integrated red LED and vibration functions to enhance the self-care ritual, taking inspiration from professional Korean head spa treatments. The product can be used daily, morning or evening, as part of scalp skin care routines.

Claims & Benefits

Helps refresh and rebalance the scalp with Cooling Active Complex
Lightweight, fast-absorbing, non-sticky daily scalp serum
Supports scalp hydration and comfort with panthenol and ectoin
Helps improve scalp freshness and reduce excess oil appearance
Cooling sensory experience with menthol and peppermint extract
Integrated ON/OFF brush applicator supports clean, precise scalp delivery
Washable reusable applicator designed for hygienic daily use
Red LED and vibration functions enhance the sensory self-care ritual
Inspired by professional Korean Head Spa treatments
Designed for modern scalp skincare and wellness routines

LITTLE SCIENTIST

Rekera Oil

LITTLE SCIENTIST

Rekera Oil

Product description

ReKERA OIL is a lightweight repair hair oil that enhances the hair's natural strength to leave it smooth, manageable, and controlled throughout the day, without any heaviness or build-up. The formula's Smooth Film Technology forms a flexible, protective film on the hair, which allows the excess oil to evaporate, leaving only the necessary repair ingredients. And the formula's Pseudo 18-MEA technology mimics the hair's natural lipid barrier to support the long-lasting adhesion of repair ingredients, while a lightweight volatile oil system reduces greasy residue, and heat-reactive lactone ingredients are activated by styling tools. The formula is infused with fullerene-based UV and oxidative stress protection, and Japanese botanical oils including kaya seed oil and tea seed oil to nourish. In tandem, low-molecular keratin, ceramides, and liquid crystal cholesterol support the repair of cuticles' cellular membrane complex. After use, hair maintains its shine for eight hours, compared to untreated hair.

Hair Products

Product description

Care and color combine in this mineral-pigmented lip product, which offers UVA and UVB SPF 30 sun protection, deep moisture, and high shine. Its ingredients include peptides and hyaluronic acid to smooth and moisturize lips, alongside blackcurrant oil, jojoba oil, and shea butter to deeply nourish and smooth lips while providing shine. Available in five shades, from the silver-toned Disco to the deep pink Boss, the product can be worn alone or applied over lipstick. The color is also buildable for a more intense effect, and to maintain sun

protection it's recommended that the product is re-applied every two hours.

Claims & Benefits

UVA/UVB SPF 30 protection. Deeply moisturizes and nourishes dry lips.

Platinum 21

Product description

A cushion formula infused with regenerative skin care benefits, thanks to this product's exosome technology. The formula has been developed using ExoCoBio's proprietary rose stem cell-derived extracellular vesicle, or RSCE™ technology, combined with soothing, hydrating, and skin-conditioning ingredients. In terms of aesthetic benefits, the cushion is formulated with a Soft Fix Gel Network technology that creates a flexible gel structure that melts onto the skin for breathable, even, and buildable coverage, while helping maintain hydration and reduce excess shine. And as for skin care, the formula combines the Rosa damascena callus extracellular vesicles' 50,000 ppm regenerative complex; titanium dioxide and zinc oxide mineral SPF50+ PA++++ UV filters; a CICA 5X complex; a multi-hyaluronic acid complex; and niacinamide and adenosine to improve the appearance of skin tone and wrinkles. The cushion provides a long-lasting, hydrated finish without heaviness,

and is suitable for those with sensitive skin.

Claims & Benefits

SPF50+ PA++++ broad-spectrum UV protection, Mineral sunscreen system using Titanium Dioxide and Zinc Oxide
Helps support skin hydration and moisture retention
Helps improve the appearance of skin tone and texture
Helps support smoother-looking, radiant skin
Lightweight breathable complexion coverage
Comfortable non-heavy daily wear formula
Helps reduce excess shine while maintaining hydration
Helps soothe and condition stressed skin
Contains CICA 5X Complex for calming support
Contains multi-hyaluronic acid complex for hydration support
Contains niacinamide and adenosine for skin-conditioning benefits
Formulated with 50,000 ppm Rose EVâ„¢ regenerative complex
Airless hygienic cushion packaging system
Soft Fix Gel Network technology for flexible, smooth skin adherence
Luxury regenerative skincare makeup hybrid
Suitable for consumers seeking skincare-focused complexion makeup

Pdrn Collagen Tinted Moisturizer

Make up & Nail Products

Winner

MIXSOON (PARKET)

Pdrn Collagen Tinted Moisturizer

Product description

This tinted moisturizer provides a sheer wash of color alongside myriad skin care benefits. The 74% skin care base includes rice PDRN, collagen, and peptides, which together plump the complexion and offer brightening and anti-wrinkle benefits, in tandem with providing a weightless veil of color. The product comes in ten adaptive shades, which harmonize to each person's undertones to create a healthy-looking glow. Added to this, the formula's easy-wearing technology allows for a seamless application using the fingertips, so the product melts into the face's contours for a natural finish with no harsh lines. Clinical trials from February 2026 proved the formula's 24-hour longevity, maintaining a vibrant tone without oxidation, alongside an instant blurring effect which refines the appearance of pores and texture by 32%.

Claims & Benefits

74% Skincare-Infused Base • Rice PDRN • Peptides • 24H Vibrant Glow & Luminous Hydration

The mixsoon PDRN Collagen Tinted Moisturizer is a high-performance hybrid created to illuminate and hydrate the skin with a 74% skin-active essence. Infused with Rice PDRN, Collagen, and Peptides, this formula plumps the complexion with moisture while providing a weightless, breathable veil that moves with you. Its innovative "Easy-Wearing" technology allows for a seamless application using just your fingertips, melting into your natural contours for a border-free, luminous finish. Clinical trials from February 2026 prove 24-hour longevity, maintaining a vibrant tone without oxidation, while a +32% instant blurring effect refines the appearance of pores and texture. Available in 10 adaptive global shades, this buildable formula harmonizes with your unique undertones to reveal refined clarity and a healthy-looking glow all day.

ORLY INTERNATIONAL

Nail Rescue - Bond Repair Serum

ORLY INTERNATIONAL

Nail Rescue - Bond Repair Serum

Product description

A two-in-one serum that can be used both as an intensive 14-day nail reset and as a treatment to extend a manicure, that targets weak, splitting, peeling, dry, and brittle natural nails. The serum is powered by a Bio-Active Quad Complex, intended to rebuild, reinforce, and restore natural nails from within. The complex's ingredients include biotin to support keratin production at the nail matrix, helping to strengthen brittle nails, reduce breakage, and improve nail hardness; glycolic acid, a gentle exfoliant to improve penetration of moisture between layers of the nail plate, enhancing flexibility; the PHA gluconolactone, which attracts and retains moisture within the nail plate, fortifying dry nails and reducing brittleness; and marine silicium, which enhances keratin synthesis to restore nail structure, prevent brittleness, and rebuild resilience. To use as a nail reset, two coats of the serum should be applied to nails daily for up to 14 days.

Claims & Benefits

Nail Type & Concerns:

Targets weak, splitting, peeling, dry, and brittle natural nails
Repairs damage from bad gel removals, press-ons, and overfiling.

Suitable for bare nails or as a prep layer under lacquer/gel

Performance:

Visibly rebuilds and revitalizes nails in 14 days

Strengthens nails over time

Reduces brittleness, fragility, splitting, and peeling

Increases nail moisture and flexibility

Removes surface oils on the nail plate to improve adhesion

Extends the wear of lacquer and gel manicures - less chipping, less lifting

Creates an invisible reinforcement layer that protects nails during wear

Sensory Benefits:

Fast-absorbing, touch-dry finish

Lightweight, non-tacky feel

Works as both a daily treatment and a manicure prep-coat

Salon- and home-use friendly

Ingredient Benefits (Bio-Active Quad Complex):

Biotin - strength and keratin support

AHA - flexibility and smoothness

PHA - deep moisture retention

Marine Silicium - structural resilience

METAMORPHOSIS LIGHT THERAPY

Metamorphosis Energize Red Light Activator Serum

Product description

A patent-pending serum that enhances the effects of red and near-infrared light therapy. As red-light therapy works by activating skin cells' mitochondria, this serum prepares the mitochondria, so skin's response is primed. The serum contains no oils, silicones, or fragrance, absorbing in 30 seconds and creating no barrier to light penetration. Key to the formula is PhotoActiv8™, a proprietary patent-pending technology platform that delivers mitochondrial primers to the skin. They include ubiquinol, the active reduced form of CoQ10, which participates in the mitochondrial electron transport chain activated by red and near-infrared light. Alongside this is astaxanthin, which protects mitochondria during the brief reactive oxygen species response triggered by light therapy; adenosine, the precursor to ATP, the cellular energy molecule that red-light therapy increases; and GHK-Cu, a copper-binding peptide that signals skin to produce collagen and elastin. Applied before red-light treatment, this mitochondrial priming serum amplifies treatment results.

Claims & Benefits

Skin Type / Compatibility:

All skin types, including sensitive

Vegan, cruelty-free

Formulated without fragrance, silicones, parabens, or oils

Non-comedogenic

Skin Concerns Addressed:

Dullness and uneven radiance

Fine lines and early signs of aging

Loss of skin firmness and elasticity

Skin texture and tone irregularity

Compromised skin barrier function

Cellular fatigue and reduced regenerative capacity, Performance Benefits:

Primes mitochondria, the cellular targets of red

and near-infrared light, to enhance treatment

response, Delivers ubiquinol, the active reduced

form of CoQ10, for cellular energy support

Provides GHK-Cu copper peptide for collagen and

elastin signaling, Supplies astaxanthin and

glutathione for antioxidant defense, Supports

NAD+ pathways with 5% niacinamide

Delivers adenosine, the direct ATP precursor

Absorbs in approximately 30 seconds with no

surface barrier to light penetration

Compatible with all red and near-infrared light

therapy devices, Sensory Experience:

Lightweight, fast-absorbing serum texture

Zero fragrance, zero oils, zero silicones

No tackiness, no residue, Ruby red gradient glass

dropper for precise application

Rice Water Milky Glow Toner

MIZON

Rice Water Milky Glow Toner

Product description

Imparting a luminous glow to skin, this toner's formula contains 80.6% Haiami rice water, a premium, high amino acid rice variety extracted via a patented PB-Rice 20™ process. This ingredient is used in place of purified water in the formula to enhance skin clarity. The five-step PB-Rice 20™ process soaks rice at 75°C for 20 hours, briefly heat-treats it at 100°C, then steam distills it to obtain the pure rice water with enhanced antioxidant and mineral content. In addition, upcycled rice bran PDRN within the formula supports the skin barrier. And the ingredient Melazero V2 is a patented skin-brightening active that helps inhibit excess melanin production and fade existing pigmentation for a clearer, more radiant complexion. In tests, the toner showed a 139.80%

improvement in radiance; a 101.54% improvement in skin clarity; and a 14.29% improvement in dead skin reduction.

Claims & Benefits

80.6% Haiami Rice Water base "replaces purified water with nutrient-dense rice water

Glow/Radiance: +139.80% improvement after 2 weeks (clinical study)

Clarity/Transparency: +101.54% improvement after 2 weeks

Lightweight, milky texture absorbs quickly without stickiness

TIMESAVVY® (PROBETTER USA)

Skin & Body Care Products

Winner

TIMESAVVY® (PROBETTER USA)

Hybrid XL Cushion Sun Serum

Product description

Sun care is captured in a cushion formula in this product, combining SPF 50 UV protection with a lightweight serum texture. The cushion has been formulated so sunscreen can be re-applied effortlessly throughout the day, encouraging more consistent use. The formula's ingredients include a hybrid sunscreen formula combining mineral and UV filters for SPF 50 protection that offers wearability with a reduced white cast. This is combined with skin care ingredients niacinamide, Centella asiatica extract, aloe vera leaf extract, hydrolyzed collagen, and adenosine. The oversized design of the cushion offers a faster, more even application, while the cooling puff technology delivers a refreshing feel during use. The cushion format – which can be applied over make-up – also makes

the product easier to carry throughout the day.

Claims & Benefits

SPF 50 Broad Spectrum Protection
Lightweight serum-cushion texture with breathable wear. Makeup-friendly sunscreen reapplication. Oversized XL cushion for fast, even coverage, Cooling puff with a refreshing skin feel, Sheer, non-greasy finish for comfortable daily wear, Mess-free and hygienic application. Portable refillable compact design. Suitable for sensitive skin and sensitive eyes
Dermatologist, Ophthalmologist, and Pediatrician Tested. Non-comedogenic and hypoallergenic
Fragrance-free and paraben-free
Reef-friendly formula (free of Oxybenzone and Octinoxate)
Helps encourage more consistent sunscreen reapplication habits
Ideal for busy, active, and modern lifestyles

Finalist

V-OLA (CELFIT BEAUTY)

Tang-tang Ball Tension Ampoule

Product description

Fusing the nourishing benefits of an oil with the feel of a serum, this ampoule offers firming care, glow, and hydration with a non-heavy finish. The product is formulated with a high-moisture oil-in-serum texture, which spreads smoothly with no heavy or greasy effect. Among the ampoule's ingredients are Cosroma® NMN; NADSOME; a lacto-PDRN complex; a 13-peptide complex; collagen; PhytoIN Balance-Biome; BIORAN EX Infla Care, an ingredient that acts on inflammation; niacinamide; a hyal 11 complex; Ceraplex 5, a ceramide ingredient; and jojoba seed oil. In addition, the ampoule's "Tang-Tang Ball" concept refers to the product's bouncy, elastic texture that enhances the user experience.

Claims & Benefits

Helps improve the look of firmness, elasticity, and skin bounce.

Supports a radiant, healthy-looking glow with a lightweight, nourishing finish.

Provides hydration and moisture comfort without a heavy or greasy feel.

Helps skin look smoother and more refined with continued use.

Supports a comfortable skin barrier feel with moisturizing and skin-conditioning ingredients.

Features NMN and NADSOME nano-liposome technology to support a revitalized-looking complexion.

Combines 13-Peptide Complex and Collagen to support firmer-looking, more resilient skin.

Offers a bouncy "Tang-Tang Ball" texture that creates a unique sensorial application experience.
